#### **Categorizations/Definitions of Shelter Animals**

**Healthy:** The term "healthy" means and includes all dogs and cats eight weeks of age or older that, at or subsequent to the time the animal is taken into possession, have manifested no sign of a behavioral or temperamental characteristic that could pose a health or safety risk or otherwise make the animal unsuitable for placement as a pet, and have manifested no sign of disease, injury, or congenital or hereditary condition that adversely affects the health of the animal or that is likely to adversely affect the animal's health in the future.

**Treatable:** The term "treatable" means and includes all dogs and cats who are "rehabilitatable" and all dogs and cats who are "manageable."

**Rehabilitatable:** The term "rehabilitatable" means and includes all dogs and cats who are not "healthy," but who are likely to become "healthy," if given medical, foster, behavioral, or other care equivalent to the care typically provided to pets by reasonable and caring pet owners/guardians in the community.

**Manageable:** The term "manageable" means and includes all dogs and cats who are not "healthy" and who are not likely to become "healthy," regardless of the care provided; but who would likely maintain a satisfactory quality of life, if given medical, foster, behavioral, or other care, including long-term care, equivalent to the care typically provided to pets by reasonable and caring pet owners/guardians in the community; *provided, however*, that the term "manageable" does not include any dog or cat who is determined to pose a significant risk to human health or safety or to the health or safety of other animals.

**Unhealthy & Untreatable:** The term "Unhealthy & Untreatable" means and includes dogs and cats who, at or subsequent to the time they are taken into possession,

- (1) have a behavioral or temperamental characteristic that poses a health or safety risk or otherwise makes the animal unsuitable for placement as a pet, and are not likely to become "healthy" or "treatable" even if provided the care typically provided to pets by reasonable and caring pet owners/guardians in the community; or
- (2) are suffering from a disease, injury, or congenital or hereditary condition that adversely affects the animal's health or is likely to adversely affect the animal's health in the future, and are not likely to become "healthy" or "treatable" even if provided the care typically provided to pets by reasonable and caring pet owners/guardians in the community; or
- (3) are under the age of eight weeks and are not likely to become "healthy" or "treatable," even if provided the care typically provided to pets by reasonable and caring pet owners/guardians in the community.

### **RECOGNIZING MADDIE: THE LITTLE DOG THAT MADE THIS GRANT POSSIBLE**

Maddie was a beloved Miniature Schnauzer whose unconditional love, devotion, loyalty and spirit inspired her guardians to start a charitable foundation, Maddie's Fund®, in her name.

Dave and Cheryl Duffield fell in love with Maddie when she was only ten days old. "We held her in our arms, and loved her immediately," says Dave. Over the course of their ten years together, Dave remembers one special day. Playing with Maddie, he picked her up and made the following promise: "If we ever make some money, I promise we will give it back to you and your kind so others can be as happy as we are today."

Dave and Cheryl are fulfilling their promise to Maddie. They have endowed Maddie's Fund with more than \$300 million. The Duffields don't want to make a big fuss over their personal contribution, but they do want to honor their beloved dog and the special bond they shared with her.

*Please help us recognize Maddie!*
